

Public notice

9 mile land (Bushwara) update

No deal with NCDC for 9-mile squatters

After lengthy discussions, in good faith, no agreement has been reached between National Capital District Commission (NCDC) and Nambawan Super Limited (NSL).

All squatters on Nambawan Super Limited land (P2156, P2157 and P2159) are required to leave the site.

Nambawan Super Limited is progressing to secure vacant possession, as per the court orders.

Squatters have been well informed, and must cease any building, and prepare to remove personal property.

Occupants of dwellings on the site boundary have already received notice to remove any encroachments on the site, in advance of fence preparation works due to commence in the coming weeks.

All squatters must relocate to enable orderly redevelopment of the site.

Squatters should make arrangements to have their property relocated at their own cost.

For more information about the site contact Nambawan Super

Visit the Project site office located at Portion 2157
